True-Fit
DENTAL IOS

Scanner + Training. Digital Done Right.

Digital impressions with *less stress* and expense.

More care for your patients and confidence for your practice.

You can go digital with confidence and improve the restoration experience for your patients, without the historic financial burden. **Personalized training and support are included,** from an experienced lab technician, chairside assistant and son of a dentist. The AlliedStar AS 260 is a 175 g wired scanner on a single USB-C cable, with AI-assisted scanning, an open workflow and no required monthly software fees, and it comes **with a laptop set up for your scanner** (laptop included is negotiable).

Flexible payment terms

Lease (subject to approval) or pay outright, with terms that give your team time to get comfortable first. Terms are always open to discussion.

A lab Eric trusts

Eric co-owns (50%) Digital Dental Leaders and truly believes they'll do great work for you. They're happy to make a sample case, and new DDL accounts get a $1,000 lab credit.* See their digital workflows at **digitaldentalleaders.com/digital-workflows**. You're welcome to send your cases to any lab; your scanner, training and support are the same either way.

See the AS 260 in your practice. **Call or text Eric at 951-430-9888 to book a demo.**
